

DESCRIPTION

Specifically formulated and nutritionally balanced for performance horses, as well as yearlings and broodmares.

13% protein, 8% fat, 15% fiber, low glycemic feed designed to provide a safe energy source by reducing the amount of energy supplied by soluble carbohydrates.

Dietary fat from soybean oil, flaxseed, and rice bran provides increased energy density, allowing horses to maintain body weight while consuming less feed.

Ideal balance of fat, fiber, and starch as energy sources, allowing horse to maintain adequate muscle glycogen stores for optimal performance.

FEEDING DIRECTIONS

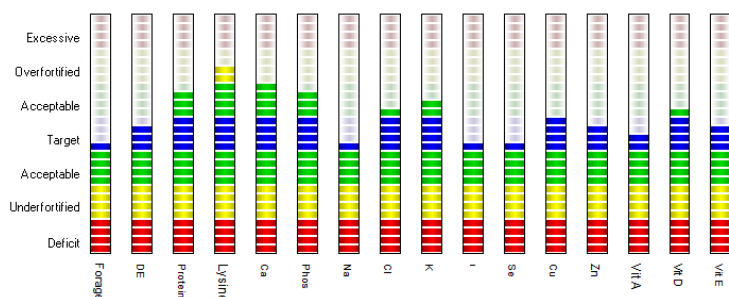

Feed mature idle horses 0.4–0.6% of body weight per day. Horses and ponies in light work should be fed 0.5–1.0% of body weight, those in moderate work should be fed 0.6–1.1% of body weight, and those in heavy work should be fed 0.75–1.25% of body weight. Amount required will depend on horse's activity level, body condition, weight, etc.

- Limit meal size to 0.5 lb per 100 lb body weight.
- Feed in combination with a minimum of 1.0–1.5 lb of good-quality forage per 100 lb body weight per day.

SIZE OF HORSE	FEED INTAKE PER DAY (LB.)		
	LIGHT WORK	MODERATE WORK	HEAVY WORK
PONY (600 LB.)	3-4	4-6	5-8
HORSE (1200 LB.)	5-8	7-12	9-15
LARGE HORSE (1400 LB.)	7-9	9-14	11-17

SAMPLE DIET

Weight: 1200 lb. Equus Low Starch 8 lb.
Activity: Moderate Work Grass Hay 18 lb.

INGREDIENTS

Whole Oats, Soybean hulls, Wheat Millrun, Soybean Meal, Rolled Barley, Plain Dried Beet Pulp, Cane Molasses, Vegetable Oil, Dehydrated Alfalfa Meal, Dicalcium Phosphate, Sodium Bentonite, Calcium Carbonate, Sodium Chloride, flax seed, Saccharomyces cerevisiae, Brewers Dried Yeast, Hydrated Sodium Calcium Aluminosilicate, Hydrolyzed Yeast, Choline Chloride, Zinc Sulfate, Vitamin E Acetate, Manganous Sulfate, Copper Sulfate, d-Alpha tocopheryl Acetate, Ferrous Sulfate, Sodium Selenite, Niacin Supplement, Zinc Methionine Complex, Vitamin A Acetate, Manganese Methionine Complex, Copper Lysine Complex, Cobalt Glucoheptonate, D-Cal Pantothenate, Riboflavin Supplement, Menadione Sodium Bisulfite Complex, Thiamine Mononitrate, Biotin, Vitamin B12 Supplement, Pyridoxine Hydrochloride, Vitamin D3 Supplement, Cobalt Carbonate

FEED ATTRIBUTES

- High-calorie, high-fat, high-fiber, moderate-starch textured feed for performance horses and ponies with significant caloric requirements.
- Fortified with KER Micronutrients including:
 - Natural-source vitamin E
 - Omega-3 fatty acids
 - Chelated trace minerals
 - Yeast culture
